**ACKNOWLEDGEMENT**

Early childhood is a stage where a child starts learning from surroundings including Home, Society, Social media and school. This early stage when foundation of learning is being laid is very crucial and complex for a child specially when a child simultaneously faces biological, psychological and emotional changes. Thus teaching a kid at early childhood stage required special knowledge about child development with modern teaching techniques used worldwide.

We are highly thankful to Mst. Naheed Wasi, Director, Institute of Early Childhood Education and Development (IECED) for developing and designing both Certificate and Diploma Courses in the field of Early Child Education Development for Sindh Board of Technical Education. Mst. Naheed Wasi expertise in Early Childhood Education are acknowledged and appreciated throughout Pakistan.

We owe her deepest gratitude and appreciate her commitment and continuous honorary contribution to the Board.
